

# SINGLE WIRE KITS

Professional Two Way Radio Accessories

**1SM**

## **Regalis Jnr**

The model 1SM covert microphone works on bone conduction technology. With the same style of PTT used on our 2PR and other single wire kits, it has great tactile feel and will last a lifetime. The ear microphone has a combined speaker and microphone that works from the ear canal, no batteries are required. This is great for covert applications where only a whisper needs to be clearly heard.

**1WX**

**RAPTOR**  
one

## **Raptor One**

The model 1WX is an single wire kit that utilizes our Elite Air Tube system that is like no other. The audio delivered to the ear is second to none. The PTT/Microphone assembly is the same as used on our ever popular 2PR accessory which has proven to be a very popular and reliable unit. Our new shielded polyurethane cable is used throughout to offer years of trouble free service.

**2DH**

## **D Ear Hook with Lapel Mic.**

The model 2DH utilizes the popular D Hook style of ear hook that is combined with our proven Inline PTT/Microphone assembly and polyurethane cable for many years of trouble free service.

**2PR**

## **Ear Hook with Lapel Mic.**

The model 2PR is based on the extremely popular and widely accepted mobile phone style of accessory. Although we have designed this product with the radio user in mind. Heavy duty polyurethane cable is used throughout, all cable entries are relieved and a large rubber PTT button is used for superior feel and reliability. This is still our most popular, but more heavy duty.

**3PR**

## **Ear Bud with Lapel Mic.**

The model 3PR is based on the extremely popular and widely accepted mobile phone style of accessory. This is the same as the 2PR ear hook single wire kit accessory, but with an ear bud in place of the ear hook.

**9MR**

## **On The Ear Hook with Lapel Mic.**

The model 9MR uses an On-The-Ear hanger type ear hook speaker with large foam cover for on the ear use. Heavy duty polyurethane cable is used throughout, all cable entries are relieved and a large rubber PTT button is used for superior feel and reliability.
